About the Portal

This EU-U.S. Science and Technology Portal is dedicated to foster trans-Atlantic EU-U.S. cooperation and to provide you with up-to-date information, news, and related documents, such as S&T Agreements, regarding Science and Technology (S&T) cooperation between the European Union and the United States.

Two projects are behind this Portal:

BILAT-USA

BILAT-USA is addressing U.S. researchers providing information on the 7th Framework Programme (FP7), such as open calls targeting specifically cooperation with U.S. researchers, research organizations and companies.

The BILAT-USA Helpdesk provides U.S. researchers support via e-mail responding to questions related to EU-U.S. cooperation under FP7.

Link2US

Link2US is addressing European researchers highlighting the major U.S. federal government funding programmes that are open for European researchers.

The Link2US Helpdesk provides assistance to European researchers on U.S. federal government funding programmes via telephone and e-mail.

News
